**Administrator’s Report – Michele Fishburn**

Ms. Fishburn reviewed with the Board the 2014 Year End Budget Review stating that revenue for the year was $3,585,344.00, which was below budget by $4,191,000.00 and the local tax levy represented 16.8% of budget. Ms. Fishburn added that the Health Fund balance on December 1, 2014, was $1,044,465.00, which reflected slight differences due to not hiring a Doctor during this time period while we were recruiting for a new CMO, so that affects both salaries not going out and revenue not coming in. Ms. Fishburn addressed questions by Board members regarding transfers that totaled $230,268.00 for 2014, from the Health Department to the Community Health Center. Ms. Fishburn also addressed concerns by Board members regarding payments from the State of Illinois arriving late by saying that it does occasionally happen where funding arrives late.

Ms. Fishburn informed the Board that the Local Health Protection Grant application has already been submitted by Mr. Jarvis, with level funding of $108,311.00 in a previous year. Ms. Fishburn went on to say that this grant helps fund our core programs and is a grant that is closely watched by the local Public Health Administrator’s Group. Ms. Fishburn also stated that the Public Health Administrators Group has been in discussions with the new Governor to determine whether to ask for an increase in funding or to wait a year to ask for an increase, but there has been no word at this time if a solution has been reached.

Ms. Fishburn gave the Board a legislative update by saying a new director for the Illinois Department of Public Health has been named now that Governor Rauner has taken office and several chiefs of staff as well as deputy directors’ positions have changed within the department. Ms. Fishburn added that some of the positions at the Illinois Department of Public Health have been let go but then brought back a short time later. One of these positions that we were happy to see come back was that of Andrea Parker, our regional person in Peoria.

date we have contracts with all eight insurance companies that were listed per the CDC for the state of Illinois, with this we will now the ability to bill them. Mr. Jarvis informed the Board regarding the recent measles outbreak by stating that there were ten confirmed cases in Illinois, with nine out of those ten being linked to the KinderCare Learning Center in Palatine, IL. Mr. Jarvis added that all ten were under the age of one year and therefore too young to be vaccinated. He went on to say that there was no official word on whether these cases were connected to the recent outbreak at Disneyland in California.

Mr. Jarvis added that 98.4% of enrolled children in Knox County Schools are in compliance with Measles according to School Report data.

Mr. Jarvis reported to the Board regarding the Vaccines for Adults program (VFA) by saying this program is similar to the Vaccines for Children’s program (VFC), also through the state of Illinois, is designed to cover uninsured and under insured adults 19 years old and older for a number of different immunizations.
