Also there were some job vacancies that were not filled. No Reserve money was used or transferred to the Health Center this year and the Health Center, for the first time, finished $30,000.00 in the black.

**Administrator’s Report – Michele Gabriel**

Ms. Gabriel introduced Maggie Acosta, Public Health Associate to the Board. Ms. Acosta came from Maine and is replacing Duane Young the previous Public Health Associate.

Ms. Gabriel informed the Board that our Accreditation has been put on inactive status, so we can become more familiar with our information. We lost two primary people who were working with Mr. Jarvis on the process. The site visit scheduled for the February 1st and 2nd, 2017 has been postponed for two months.

Ms. Gabriel informed the Board that included in their Board packets was a copy of our 2016 accomplishments for their review. Ms. Gabriel continued saying a list of accomplishments will be added to the Annual Report along with focus on ending the FY2016 in the positive. Ms. Gabriel encouraged Board members to share any Health Department accomplishments they would like to see in the FY2016 Annual Report.

Ms. Gabriel updated the Board regarding Grant Funding saying most of the grants we receive are Federal Pass-through Funds that tend to come through more quickly than the State Funding we receive. Ms. Gabriel continued stating that the Grant cycle seems to be right on track with last year’s schedule and we are still waiting on executed contracts from the State of Illinois.

Ms. Gabriel updated the Board regarding the FY18 TPS Grant, which was previously in the amount of $50,000.00. We have recently been told that changes are being made to this program, so the grant has been defunded for one year while an assessment is done in hopes to revamp this program. The TPS Grant will be available to us in 2018 and will be a competitive grant.

Ms. Gabriel updated the Board regarding Staffing stating that Heather Kusler, Director of Family Health resigned effective December 30, 2016. Catherine Ayers, part-time Family Health RN is serving as Interim Director of Family Health until we get another Director hired. Judy Lee, Behavioral Health Counselor has also resigned to take another position, so we will be looking
for a replacement for her. Ahash Patel has been hired as a part-time Dentist, starting on January 24, 2017. He will work one day a week while he is waiting to do his Entrance Exam.

Ms. Gabriel updated the Board with the Legislative Report stating with the news around the Affordable Care Act is the focus of the FQHC’s, The National Organizations, and the Illinois Primary Health Care Association, which are doing a lot of work with legislators to insure that Health Centers stay funded at the level they currently are. Letters to Senators and Representatives will be sent out over the next few weeks reminding them we have been in place for 50 years as by-partisan, known for working across the aisle and successfully as a Health Care entity. With that being said the prime focus is to keep the Health Centers operating successfully even with the anticipated changes to the Affordable Care Act.

Ms. Gabriel continued the Legislative Report by telling Board Members that several Medicaid changes have been pasted including changes to Pre Exposure Prophylactic for HIV Prevention (PREP). Medicaid will now cover this, as well as being covered under our 340B Program. There was also a small revision to the Illinois County Codes, which now authorizes Health Departments, Municipal Health Departments, and other Boards of Health to contract with Public or Private Hospitals, Non-for Profits, and Public Health Services that are outside their jurisdiction.

Mr. Jarvis updated the Board regarding changes to the Lead Poison Prevention Act. These changes require owners of dwellings to notify the Health Department if they have been served with a litigation notice, also notify any future tenants. We foresee meeting with County and City of Galesburg officials both, to best decide how to implement this change.

Mr. Jarvis updated the Board regarding Senate Bill 550, which is in regards to testing water in schools and day cares and how reimbursement will take place for these tests. Schools will have to decide how they should test. Notices will need to go out to Health Departments and School Boards and if above a certain level, will need to be reported to parents.

**Health Protection Services Report – Sam Jarvis**

Mr. Jarvis informed the Board that Knox County has been re-awarded $4,950.00 from the Department of Public Health through the Public Health Emergency Preparedness Grant. Originally funds were cut for this grant to fund Zika Virus efforts, so the money that was not used for Zika was re-awarded.

out letters and making phone calls in regards to networking with community partners and offering Wellness and Health Promotion presentations. Updating collaboration and community partner contact files. Doing consistent Social Media outlets, press releases, live radio, as well as work with local media outlets.

**NEW BUSINESS – Michele Gabriel**

Ms. Gabriel reported to the Board that we have been working on a Fee Schedule for the Public Health Side in anticipation of the new Electronic Health Record Software we were looking at implementing to help us bill insurance and to get paid through insurance appropriately. We want to remain accessible to individuals who have no insurance and need vaccinations, but we are also looking at whether the software will pay for itself in money we are able to bring in through billing insurance. Ms. Gabriel continued saying we are proposing adding a 10 percent markup on vaccine, so we are getting fully reimbursed from insurance, as well as billing for the office visit. As for our cash paying patients, we are proposing a pay the same day discount of 25 percent, we would also have to offer this to insurance companies.
