Ms. Gabriel introduced Samuel Chin, Health Center Educator to the Board. Mr. Chin informed Board Members that Public Health Week will be April 3 through April 7, 2017 and in celebration of Public Health Week we have two major events planned. On April 5, 2017 a Community Walk called “Little Steps Big Gains,” which also coincides with National Walking Day and on April 6, 2017 we will have a Blood Drive here at the Health Department. In closing Mr. Chin stated the subject for Public Health Week is Chronic Disease, so we will be promoting this during the radio press releases we have planned for Public Health Week.

Ms. Gabriel informed the Board that Budget Adjustments will need to be done over the next couple months due to Grant money coming in and out. Two Community Health Center pools, which is considered Project Money will need to be put into the Budget, allocated properly, and then taken out of the Budget. One Grant is in the amount of $35,000.00 and the other is in the amount of $45,300.00. Ms. Gabriel continued by saying that we have budgeted for another fulltime Licensed Environmental Health Practitioner due to the implementation of the new Federal Food Codes that will go into effect next year. Also to replace the part-time position we have never filled.

Ms. Gabriel updated the Board regarding the Community Health Center Business Plan, which HRSA requested we do per their Site Visit last year. The idea of this report is to set benchmarks to keep us up to date financially. This process started with us adding our Billing and Insurance Department, strengthening our Billing procedures, and increasing the Governance Board reports. All of which were requested by HRSA. In closing Ms. Gabriel added this is the written plan that will be submitted to HRSA.
Ms. Gabriel reported to the Board that we attended the Clinton Foundation Health Matters Initiative at Knox College on February 28, 2017 where the Blueprint for action was announced. Ms. Gabriel added that she has tentatively scheduled Emily Wyble, Clinton Foundation Project Coordinator to speak at next month’s Board of Health Meeting.

Ms. Gabriel updated the Board with the Legislative Report saying she will be attending the Public Health Care Administrators and Primary Health Care Association Legislative Action Day on April 5 and 6, 2017. She continued saying there are some entities having trouble receiving Medicaid payments, with MCO’s not receiving payments for several months, but the FQHC has continued to receive payments all along.

Ms. Gabriel updated the Board about a Bill that is currently up for Legislation regarding raw milk. This new Bill would allow raw milk to be sold anywhere. We oppose this Bill due to public health risks, such as disease and infection, but IDPH supports it.

Ms. Gabriel reported to the Board that among our nomination for the Non-Profit Chamber Award was also the YMCA, the Galesburg Community Foundation, the Civic Art Center, and the Orpheum Theater. The Orpheum Theater was the winner of the Award, but it was an honor for us to be nominated.

Ms. Gabriel reported to the Board that we have 20 open Lead Cases in which our Environmental Health Department is working on. These people have been notified and we have not heard back from them on how they plan to remove or abate the lead, so the States Attorney has been notified. After we meet with the States Attorney’s Office the 20 Lead Cases will be turned over to them to have letters sent out to these individuals from that office and will be monitored on a quarterly basis by the Assistant State’s Attorney and our Environmental Health Staff.

Ms. Gabriel continued updating the Board regarding Lead stating the City of Galesburg has applied for the HUD Healthy Homes Grant. If received this money will help us to go into homes containing lead to make changes to abate the lead. The Service lines outside of the home will also be replaced by the City through a forgivable loan. Ms. Gabriel added that we are hoping that eventually we will be able to take care of the Lead problem throughout the entire County.

Ms. Gabriel informed the Board that she had spoken with the person in charge of the Lead Program at the State level who works at IDPH and it was discussed that the current Lead Program is in the process of being revamped to improve it. Ms. Gabriel added that the current Lead Program is poorly put together and underfunded.

We now have access to the website to update forms and will have one month to finish our second round documentation revisions. In closing Ms. Olson said there is no site visits date set at this time.
