Registration Link for Thursday, May 27th Janssen Clinic (18 years of age & up)

<https://events.juware.com/IL-IDPH/ft9ps/>

All Knox County Health Department COVID-19 vaccination clinics are held at the Knox County Unified Command Vaccine Center, 1150 W. Carl Sandburg Dr., Galesburg (former Bergner's building). Registration is preferred, but walk-ins are welcome. **As always, all clinics are dependent on vaccine supply for the week.**

People in search of a first dose need to visit our Facebook page or website, knoxcountyhealth.org for a link to the first-dose clinics.

We appreciate your patience and know we have asked for it a lot already. Please know we are doing the best we can to complete our mission of having Healthy People in a Healthy Community.

We are using an internet-based registration system to make this mass vaccination effort work as well as possible. We understand that our older residents might not have access to computers or the internet. We ask that you please assist family member, friends, and neighbors.

Please do not call the health department to schedule your time slot. Currently, the only way to reserve a dose for the vaccination clinics is through the above links.

The health department is receiving a high volume of calls and staff might not be able to return your message. We ask that you seek vaccine information on our Facebook page, website: knoxcountyhealth.org, or the Illinois Department of Public Health and CDC's websites. We apologize for the inconvenience, but our staff are working hard to make sure all Knox County residents receive both doses of the COVID-19 vaccine as quickly as possible.
