- <https://events.juware.com/IL-IDPH/ebhw/>

### **Pfizer Booster Shot Information:**

The Knox County Health Department will be following the Centers for Disease Control and Prevention's (CDC) and Illinois Department of Public Health (IDPH) recommendations for a booster shot of the Pfizer-BioNTech COVID-19 vaccine in certain populations and a booster dose for those in high risk occupational and institutional settings at least six (6) months after their initial primary series.

According to the CDC a “**booster dose**” refers to another dose of a vaccine that is given to someone who build enough protection after vaccination, but then that protection decreased over time (this is called waning immunity).

### **CDC recommends that following groups receive boosters:**

- people 65 years and older and residents in long-term care settings.
- people aged 50–64 years with underlying medical conditions

### **Additionally, CDC recommends the following groups may be considered for boosters.**

- people aged 18–49 years with underlying medical conditions and
- people aged 18-64 years who are at increased risk for COVID-19 exposure and transmission because of occupational or institutional setting.

People should talk to their healthcare provider about their medical condition, and whether getting a booster dose is appropriate for them.

**\*\*Registration is preferred for clinics, but walk-ins are welcome. As always, all clinics are dependent on vaccine supply.**

We appreciate your patience and know we have asked for it a lot over the last year and a half. Please know we are doing the best we can to complete our mission of having Healthy People in a Healthy Community.

We are using an internet-based registration system to make the vaccination effort work as well as possible. We understand that our older residents might not have access to computers or the internet. We ask that you please assist family member, friends, and neighbors.

Please do not call the health department to schedule your time slot.

The health department is receiving a high volume of calls and staff might not be able to return your message. We ask that you seek vaccine information on our Facebook page, website: [knoxcountyhealth.org](http://knoxcountyhealth.org), or the Illinois Department of Public Health and CDC's websites. We apologize for the inconvenience, but our staff are working hard to make sure all Knox County residents receive both doses of the COVID-19 vaccine as quickly as possible.
