Registration is preferred for clinics, but walk-ins are welcome. As always, all clinics are dependent on vaccine supply.

We appreciate your patience and know we have asked for it a lot over the last year and a half. Please know we are doing the best we can to complete our mission of having Healthy People in a Healthy Community.

We are using an internet-based registration system to make the vaccination effort work as well as possible. We understand that our older residents might not have access to computers or the internet. We ask that you please assist family member, friends, and neighbors.

Please do not call the health department to schedule your time slot.

The health department is receiving a high volume of calls and staff might not be able to return your message. We ask that you seek vaccine information on our Facebook page, website: knoxcountyhealth.org, or the Illinois Department of Public Health and CDC’s websites. We apologize for the inconvenience, but our staff are working hard to make sure all Knox County residents receive both doses of the COVID-19 vaccine as quickly as possible.
